

## BOSS

### Pay Station Configuration Made Easy

The power to quickly and easily configure your multi-space pay stations is at your finger tips. The BackOffice Support System (BOSS) from T2 Systems (T2) is a software application designed to configure all operating aspects of your pay station and is available with every Digital parking machine. BOSS enables you to configure and adjust rates, payment and display options, and unit configuration as often as you like. Updating your network of pay stations is easy. You can use the supplied BOSS Data Key or the Internet via T2's Digital Iris.

#### Configuration

Each pay station can be configured to meet your specific needs. Settings for each pay station include:

- Introduction screen
- Operational mode (Pay-by-License Plate, Pay-by-Space, Pay-and-Display)
- Language support
- Accepted payment types
- Accepted currency denominations
- Extend-by-Phone support
- Receipt headers and footers

#### Rates

The pay station supports a range of rate types providing you with complete flexibility for your operation. All rates can be previewed before updating the pay station. Supported rate types include:

- Hourly
- Daily
- Incremental
- Monthly
- Blended
- Scheduled
- Valid For
- Expires At
- Holiday

BOSS also offers a Restricted Rate that can be used to inform consumers when and why the pay station(s) is not in operation due to street maintenance or special events.

## Coupons

Coupons can be enabled in BOSS to provide discounted parking for individuals or groups. Consumers likely to benefit most from using coupons are:

- Patrons of local merchants
- Event attendees
- Special guests
- Carpool pass-holders

## Languages

Digital pay stations support both Roman and non-Roman characters. Pre-configured languages can display on the pay station screen. Most pre-configured languages can also print on receipts. Supported languages include:

- English
- French
- Spanish
- Vietnamese
- Simplified Chinese

All on-screen prompts and receipt fields can be modified using BOSS to meet your specific language needs.

## Offline Credit Card Processing

All of T2's systems are PCI compliant and PA-DSS validated for the secure processing of both online and offline credit card transactions. BOSS facilitates the offline processing of credit card transactions by manually downloading transactions from the pay station and then processing them.

## Offline Reporting

Numerous reports can be generated using BOSS by first downloading pay station transaction data. BOSS can generate the following reports:

- Transaction Report
- Audit Report
- Cash Report
- Rate Report
- Custom Card Report
- Online Configuration

## Online Configuration

Pay stations can be configured and have their rates adjusted in real-time using BOSS when connected to Digital Iris. Alone BOSS allows you to manually upload configuration and rate changes to your pay stations using the supplied BOSS Data Key.

## Think Technology. Think Solutions. Think T2.

Since 1994, T2 Systems has been providing the parking industry with solutions that meet the ever-changing needs of parking managers and parkers alike. T2's unified parking management platform combines quality products and services with a commitment to thought leadership and strong customer relationships. T2's intelligent platform of Solutions-as-a-Service (SaaS)—including enforcement, permits, payments, PARCS, event parking and real-time parking availability—is trusted by over 1,000 organizations in the United States and Canada, including universities, cities, towns, private operators, and airports.
